

FOR IMMEDIATE RELEASE

**Information Technology eXperts, Inc. rated #3 by ColoradoBiz Magazine's
Top 50 Minority Firms.**

Fort Collins, CO, July 18, 2003 – Information Technology eXperts (ITX) today announced that they are rated the third fastest growing minority owned company in Colorado according to ColoradoBiz Magazine. The rating is based on gross revenue growth from 2001 to 2002. ITX realized a 53% increase during the rating period.

ITX is located in Fort Collins and specializes in full service IT support. ITX currently employs 30 people and serves a mixture of commercial clients located from Denver to Southern Wyoming as well as Federal government agencies across the country. The ITX team focuses on a comprehensive service offering, including databases, networks, help desk, and hosting solutions.

ITX was founded by Mai Tran in 1996 with co-owner Bruce Hottman. Tran, originally from Vietnam, partnered with Hottman after several years of experience in the high tech sector. Today, their company continues to grow due to a focus on customer service and an increased tendency of companies to outsource IT related services.

“I am very proud of the company we have built,” said Mai Tran, owner and co-founder of ITX. “I think our growth is a result of the hard work that we have put into creating processes and cultivating strong relationships with our clients.” “To be recognized for this is really an honor,” he added.

About ITX

ITX was founded in 1996 and is northern Colorado's leading full service IT support provider. ITX is privately owned, headquartered in Fort Collins, Colorado, and currently employs 30 people. The ITX team provides database, network, help desk, and hosting solutions to a cross-section of local commercial businesses and Federal government agencies across the country. ITX' team of technical experts is dedicated to clients and committed to quality solutions. As a result, businesses that turn to ITX can count on a measurable increase in the effectiveness of business.
