

Wireless Networks

Secure, scalable, & cost-effective

ITX wireless experts combine the best elements of wireless and wired networking to deliver secure, scalable wireless networks with a low total cost of ownership.

Maintain your competitive advantage through the freedom and flexibility of a wireless network. ITX can outfit you with a secure, scalable, **cost-effective wireless solution** that offers:

- Anytime, anywhere access to information, promoting collaboration with clients and colleagues
- Real-time access to instant messaging, e-mail, and network resources, boosting productivity and increasing decision-making
- Modular architecture that supports 802.11n, 802.11a/b/g, and enterprise wireless mesh for indoor locations, while ensuring a smooth migration path to future technologies and services
- A powerful solution that delivers business-class connectivity and facilitates deployment of innovative applications
